Whether you are looking for an indoor or outdoors signage, our skilled team works with you from design, fabrication, installation and maintenance.

ROADSHOWS & EXHIBITIONS

We believe that marketing should focus on creating experiences between brands and customers. Road shows and exhibitions are a great way to engage a specific target market group and create brand awareness, without incurring the often substantial costs associated with a large scale static exhibition.

We have mastered the art of creating unique booths and stands that will bring your brand to life and help you interact directly with your target audience.

Our garments facility produces apparels using quality fabric sourced from certified vendors. With a well rounded and experienced production team, we supply textile products in bulk to wholesalers, institutions, corporates and industries.
